It is with complete transparency that I want to make you aware in advance of an issue which may come to your attention. You may or may not be aware of the pattern and practice of School Board officials continued violations under the Sunshine act and their actions of Deprivation of Citizens rights under the color of law.

You may be aware of school board officials attempting to remove law abiding citizens from public property for non-compliance to a policy. Unfortunately, citizens are being unlawfully threatened, intimidated, coerced by law enforcement in a capacity to enforce a policy. I don't think that is appropriate or lawful to involve law enforcement into policy enforcement.

Further, school boards are attempting to convert a 1st amendment protected right into a criminal act. I also believe that you have an understanding that free speech is not criminal.

I have provided advanced notice to law enforcement and countless other public servants making my best attempt at being reasonable. However, these are unreasonable times and a wise person told me, hope for the best and plan for the worst. It is my hope that I encounter reasonable people, pausing, verifying in advance of making an unlawful decision. ✱

Regards,
Robert Smith
