

Officer,

I have never had any ill will, nor ill intentions, I merely desire to remain free protected by my 4th Amendment, to lawfully redress my public officials protected by the 1st amendment at the right time, right place and in the proper manner.

Too many have made unlawful statements to deprive me of that right under the guise of policy. I follow laws and did not consent to a policy when it violates the Constitution. The Supreme Court in Marbury v Madison is well established precedent, that such an action would be "repugnant".

I wish that you would honor your sworn oath, and not violate my rights by attempting to convert the exercise of my rights into a crime and violate Murdock v Pennsylvania. I cannot reason with an individual who would be in violation of their oath, who may choose to follow unlawful orders or directives. That individual would not be acting in their official capacity, but their personal one.

I have exhaustively attempted to reason, and documented those attempts, all to arrive at another unlawful encounter.

I do not consent to this encounter.

I will not engage in discussion and will exercise my 5th amendment.

I do not consent to have my movement restrained, blocked, impeded.

I do not consent to being kidnapped.

I do not consent to being searched.

I do not consent to providing any information, until I have received my Miranda warnings and been presented with a Probable Cause Affidavit, Sworn Signed Warrant of Arrest.

Any touching of my private person is not consensual and I will not resist any violence perpetrated against me. (I will go limp)

I do not consent to any confiscation of materials on my person.

I will not converse without an attorney present.

Please provide this document to the Magistrate.
